CONSERVE* SC TURF AND ORNAMENTAL INSECT CONTROL

1. PRODUCT AND COMPANY IDENTIFICATION:

PRODUCT: Conserve* SC Turf and Ornamental Insect Control

COMPANY IDENTIFICATION:
Dow AgroSciences LLC
9330 Zionsville Road
Indianapolis, IN 46268-1189

2. COMPOSITION/INFORMATION ON INGREDIENTS:

3. HAZARDOUS IDENTIFICATIONS:

EMERGENCY OVERVIEW
Off-white to tan liquid suspension with low odor. May cause slight eye irritation. Material is toxic to aquatic invertebrates and fish.

EMERGENCY PHONE NUMBER: 800-992-5994

4. FIRST AID:

EYE: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

INGESTION: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Never give anything by mouth to an unconscious person.

INHALATION: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably by mouth to mouth. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

5. FIRE FIGHTING MEASURES:

FLASH POINT: Not determined (aqueous suspension)
METHOD USED: Not applicable

FLAMMABLE LIMITS:
LFL: Not determined (water-based product)
UFL: Not determined (water-based product)

EXTINGUISHING MEDIA: To extinguish combustible residues of this product use water fog, carbon dioxide, dry chemical or foam.

FIRE AND EXPLOSION HAZARDS: Keep people away. Isolate fire area and deny unnecessary entry. Under fire conditions some components of this product may decompose. The smoke may contain unidentified toxic and/or irritating compounds.

FIRE-FIGHTING EQUIPMENT: Wear positive-pressure, self-contained breathing apparatus (SCBA) and protective fire-fighting clothing (includes fire-fighting helmet, coat, pants, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

6. ACCIDENTAL RELEASE MEASURES:

ACTION TO TAKE FOR SPILLS/LEAKS: Use non-reactive absorbent to absorb small spills and collect for disposal. Report large spills to Dow AgroSciences 800-992-5994.

7. HANDLING AND STORAGE:

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE: Keep out of reach of children. Avoid eye contact. Do not take internally. Wash thoroughly after handling and before eating, drinking, or smoking. Store product in original container. See product label for additional instructions.

*Trademark of Dow AgroSciences LLC
8. EXPOSURE CONTROLS/PERSONAL PROTECTION:
These precautions are suggested for conditions where the potential for exposure exists. Emergency conditions may require additional precautions.

EXPOSURE GUIDELINES:
Spinosad: Dow AgroSciences Industrial Hygiene Guide is 0.3 mg/M$^3$, TWA.
Propylene glycol: AIHA WEEL is 10 mg/M$^3$ for total vapor and aerosol.

ENGINEERING CONTROLS: Provide general and/or local exhaust ventilation to control airborne levels below the exposure guidelines.

RECOMMENDATIONS FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS:

EYE/FACE PROTECTION: Use of safety glasses is recommended.

SKIN PROTECTION: No precautions other than clean body-covering clothing should be needed. See product label for additional instructions.

RESPIRATORY PROTECTION: Atmospheric levels should be maintained below the exposure guideline.

APPLICATORS AND ALL OTHER HANDLERS: Refer to the product label for personal protective clothing and equipment.

9. PHYSICAL AND CHEMICAL PROPERTIES:

BOILING POINT: 100°C (212°F) water
PHYSICAL STATE: Liquid suspension
ODOR: Low odor
DENSITY: 1.0374 g/ml
SOLUBILITY IN WATER: Dispersible
VAPOR PRESSURE: Similar to water
APPEARANCE: Off-white to light tan

10. STABILITY AND REACTIVITY:

STABILITY (CONDITIONS TO AVOID): Thermally stable at typical use temperatures. Some components of this product can decompose at elevated temperatures.

INCOMPATIBILITY (SPECIFIC MATERIALS TO AVOID): None known

HAZARDOUS DECOMPOSITION PRODUCTS: Hazardous decomposition products depend upon temperature, air supply, and the presence of other materials.

HAZARDOUS POLYMERIZATION: Not known to occur.

11. TOXICOLOGICAL INFORMATION:

POTENTIAL HEALTH EFFECTS: This section includes possible adverse effects, which could occur if this material is not handled in the recommended manner.

EYE: May cause slight temporary eye irritation. Corneal injury is unlikely.

SKIN: Essentially non-irritating to the skin. Prolonged skin contact is unlikely to result in absorption of harmful amounts. The LD$_{50}$ for skin absorption in rabbits is >5000 mg/kg. Did not cause allergic skin reactions when tested in guinea pigs.

INGESTION: Very low toxicity if swallowed. Harmful effects not anticipated from swallowing small amounts. The oral LD$_{50}$ for rats is >5000 mg/kg.

INHALATION: Prolonged exposure is not expected to cause adverse effects. The LC$_{50}$ for rats for 4 hours is >17 mg/L.

SYSTEMIC (OTHER TARGET ORGANS) EFFECTS: Contains component(s) which, in animals, has been shown to cause vacuolation of cells in various tissues and changes in blood and serum biochemistry. Dose levels producing these effects were many times higher than any dose levels expected from exposure due to use.

CANCER INFORMATION: Spinosad did not cause cancer in laboratory animals.

*Trademark of Dow AgroSciences LLC
**TERATOLOGY (BIRTH DEFECTS):** Spinosad did not cause birth defects in laboratory animals.

**REPRODUCTIVE EFFECTS:** In animal studies, spinosad has been shown not to interfere with reproduction.

**MUTAGENICITY:** Genetic toxicity studies on tested components were predominantly negative.

**12. ECOLOGICAL INFORMATION:**

**ENVIRONMENTAL FATE:**

**MOVEMENT & PARTITIONING:** Based largely or completely on information for spinosad and propylene glycol:
- Bioconcentration potential is low (BCF <100 or Log Pow <3).

**DEGRADATION AND PERSISTENCE:** Based largely or completely on information for spinosad:
- The photolysis half-life in soil is 9 days.
- Under aerobic soil conditions the half-life is 9 to 17 days.
Based largely or completely on information for propylene glycol:
- Material is readily biodegradable.
- Passes OECD test(s) for ready biodegradability.

**ECOTOXICOLOGY:** Based largely or completely on information for spinosad:
- Material is highly toxic to aquatic invertebrates on an acute basis (LC\textsubscript{50} or EC\textsubscript{50} is between 0.1 and 1 mg/L).
- Material is moderately toxic to fish on an acute basis (LC\textsubscript{50} is between 1 and 10 mg/L).
- Material is practically non-toxic to birds on an acute basis (LD\textsubscript{50} is >2000 mg/kg).
- Material is practically non-toxic to birds on a dietary basis (LC\textsubscript{50} is >5000 ppm).
- Acute contact LD\textsubscript{50} in honeybee (*apis mellifera*) is 0.05 µg/bee.

Based largely or completely on information for propylene glycol:
- Material is practically non-toxic to aquatic organisms on an acute basis (LC\textsubscript{50} or EC\textsubscript{50} is >100 mg/L in most sensitive species).

**13. DISPOSAL CONSIDERATIONS:**

**DISPOSAL METHOD:** If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities. This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. If the material as supplied becomes a waste, follow all applicable regional, national and local laws and regulations.

**14. TRANSPORT INFORMATION:**

**U.S. DEPARTMENT OF TRANSPORTATION (DOT) INFORMATION:**

For all package sizes shipped domestically by land
- This material is not regulated for transport

**15. REGULATORY INFORMATION:**

**NOTICE:** The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ from one location to another; it is the buyer’s responsibility to ensure that its activities comply with federal, state or provincial, and local laws. The following specific information is made for the purpose of complying with numerous federal, state or provincial, and local laws and regulations.

**U.S. REGULATIONS**

**SARA 313 INFORMATION:** To the best of our knowledge, this product contains no chemical subject to SARA Title III Section 313 supplier notification requirements.
CONSERVE* SC TURF AND ORNAMENTAL INSECT CONTROL

SARA HAZARD CATEGORY: This product has been reviewed according to the EPA "Hazard Categories" promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

An immediate health hazard

STATE RIGHT-TO-KNOW: The following product components are cited on certain state lists as mentioned. Non-listed components may be shown in the composition section of the MSDS.

<table>
